

Internal Ideathon — Rules & Idea Submission Format

Selection round for Smart India Hackathon 2026 · Source: sih.gov.in/sih2026PS

Overview

Every team competing in the college's internal round must submit their idea using the official Smart India Hackathon 2026 Idea Presentation format. Submissions that do not follow this structure, slide limit, or file format will not be evaluated. Read this document fully before you start designing your slides.

Submission Rules

- 1 Six slides, maximum**
Including the title slide. Extra slides are not read or evaluated by the panel.
- 2 Points, not paragraphs**
Present your idea using bullet points, diagrams, infographics, or pictures — avoid dense paragraphs.
- 3 Keep it precise and clear**
Explanations should be easy to understand at a glance. Judges skim first, read second.
- 4 The idea must be unique and novel**
Submissions should not be a rebrand of an existing product, paper, or prior SIH submission.
- 5 Use only the provided template**
Do not alter the idea-detail pointers already defined for each slide (see format below).
- 6 Submit as PDF — no other format**
Save your final presentation as a PDF before uploading. PPT, Word, or any other file type will not be accepted.

The 6-Slide Idea Presentation Format

This is the mandatory slide-by-slide structure. Slide 1 is your title page; the instructions slide (as seen in the official template) should be deleted before you submit.

Slide	Section	What it must contain
01	Title Page	Problem Statement ID, Problem Statement Title, Theme, PS Category (Software/Hardware), Team ID, and Team Name (as registered on the portal).

Slide	Section	What it must contain
02	Idea Title	Describe your proposed idea, solution or prototype. Include a detailed explanation, how it addresses the problem, and what makes it innovative and unique.
03	Technical Approach	List the technologies to be used (programming languages, frameworks, hardware) and the methodology / process for implementation — flow charts, images, or working prototype visuals.
04	Feasibility and Viability	Analyse the feasibility of the idea, identify potential challenges and risks, and describe your strategies for overcoming them.
05	Impact and Benefits	Explain the potential impact on the target audience and the benefits of the solution — social, economic, environmental, or otherwise.
06	Research and References	Provide details or links to the reference material and research work behind your idea.

Internal Selection Timeline

- **Stage 1 — Team Registration** — Form a team and register on the internal portal to receive a Team ID.
- **Stage 2 — Problem Statement Selection** — Choose one problem statement from the 226 official SIH 2026 statements.
- **Stage 3 — Idea PPT Submission** — Build the idea using this 6-slide format and upload it as a PDF.
- **Stage 4 — Internal Jury Round** — Faculty panel reviews all submissions and shortlists teams to represent the college.

Problem statement data referenced by the internal portal is sourced from the official Smart India Hackathon 2026 website (sih.gov.in/sih2026PS). Always confirm final details on the official portal before national-level submission. This document is for Mohamed Sathak College of Arts & Science's internal selection round only.
